PROFILE SUMMARY

Motivated MERN Stack Developer (Fresher) with practical experience building full-stack projects using MongoDB, Express.js, React.js, and Node.js.Strong understanding of frontend state management, backend API integration, and database modeling. Passionate about writing clean code, solving real-world problems, and continuously improving through new MERN technologies and best practices.

PROJECTS

E-Commerce Website (MERN Stack)   **Dec 2025 - Jan 2026**
Self-based

Tech Skills -React.js, Vite, React Router, Context API, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB (Mongoose), JWT Authentication, REST API, Axios, Git, GitHub, Render, Netlify

- Developed a full-stack e-commerce web application using the MERN stack with secure user authentication and protected routes.
- Implemented dynamic product listing with category filters, cart, wishlist, and order management using REST APIs.
- Deployed the application with environment-based configuration, ensuring responsive UI and optimized performance.

Task Management App   **Oct 2025 - Nov 2025**

Self-based

Tech Skills - React.js, JavaScript, HTML, CSS, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, Git, GitHub, Vite, Vercel

- Built a responsive task management application using React to create, update, and track tasks efficiently.
- Implemented state management and clean UI components for better user productivity and experience.

Deployed the application on Vercel with optimized build and seamless client-side routing.

EDUCATION

B.SC - IT, CGP - 6.0, Sadakathullah Appa College,Tirunelveli (2018 to 2022)

CERTIFICATION

- Full Stack (MERN) Development
